EPA Compliance

Statement

Addmaster (UK) Ltd can confirm that Biomaster is registered with the EPA and can be used in accordance with applications listed on the EPA label. The treated articles incorporating Biomaster can be sold throughout the USA in line with the treated article exemption, Pesticide Registration Notice (PR) 2000 – 1. It is extremely important that any claim is checked to ensure it isn't outside those allowed within scope of the PR notice. Any claims made that are outside scope can result in a large fine from the EPA.

Addmaster can confirm that they have an EPA registered Establishment – 86107 – GBR – 1.
